

Skills, Practices, and Aspirations of Small-scale Entrepreneurs in Low-income Settings

Julius Rüschepöhler

UC Berkeley, CEGA

March 04, 2021

Lecture Overview

1 PART I: Lecture

Business Practices and Training

- Business Practices Around the World
- Classical MSME Training
- Extensions of the Classical Approach
- Measurement of Firm Performance
- Mechanisms
- Alternative Approaches

2 PART II: Paper

Curating Local Knowledge

Business Practices in Small Firms

Vast heterogeneity in business practices **also among small firms** (?McKenzie and Woodruff, 2017)..

- .. between countries
- .. between industries
- .. between firms

In cross-section, business practices **associated with higher sales and profits** (McKenzie and Woodruff, 2017)

APPENDIX

Business Practices of Small Firms

McKenzie and Woodruff (2017) identify **set of XX best practices** most closely associated with business performance

- 5 major domains of business practices

- 1 Book-keeping and accounting
- 2 ?
- 3 ?
- 4 Inventory management and stock control
- 5 Marketing

→ Association with performance robust across industries and countries

→

APPENDIX

Business Practices of Small Firms

McKenzie and Woodruff (2017) identify set of XX practices most closely associated with business performance

- Example practices:

- 1 e.g.,
- 2 e.g.,
- 3 e.g.,
- 4 e.g.,
- 5 e.g.,

Open questions

- Does adoption of "best practices" *cause* performance to increase?
- How can adoption of practices best be encouraged?

History and Prevalence

- At least **USD 1 billion per year** (to 4-5 million beneficiary entrepreneurs; ?)
- Classical training programs *precede* evidence that business practices vary and are predictive for productivity
- Examples:
 - Start and Improve Your Business (ILO)
 - Business Edge (IFC)
 - EMPRETEC Entrepreneurship Training Workshop (UNCTAD)

PART I: Lecture
*Business Practices
and Training*

APPENDIX

Typical Training Program

Content

- Training is delivered by 600 local certified trainers and by a pool of approximately 60 international master trainers. All trainers are also entrepreneurs.
- Empretec Training Workshops offer different levels of instruction that include:
- 6-day courses (48 hours); 32-hour (usually spread over 4 days) for micro-entrepreneurs with low levels of literacy; Interactive coaching based on real business challenges of participants.

APPENDIX

Targeted Training

Refinements of the classical model

- Targeting **specific subgroups** of the population
 - Treating individuals with particular promise (e.g., high-growth firms)
→ **Maximizing impact** (or cost-effectiveness)
 - Serving marginalized or disadvantaged groups
→ Alleviating **particularly severe constraints**
 - **Maximizing statistical power** through homogeneity
- Training of skills in **particular domains**
 - Alleviating **specific constraints**
 - Investigating mechanisms of treatment impact

Background

- Micro and small firms (MSEs) are typically the main **source of employment** in the developing world
- In **Indonesia**, MSEs represent ..
 - .. 99% of all firms
 - .. 94.5% of employment
- Understanding the factors fostering efficiency and growth of MSEs is an important research and policy goal

Harnessing Cross-Firm Heterogeneity

Some stylized facts about business practices in small firms

- Vast heterogeneity in business practices and performance across similar businesses (?)
- Variation in practices accounts for more than 20% of variation in productivity within the same firm in the US (?)
 - Research has largely overlooked this heterogeneity in program design and implementation

Harnessing Cross-Firm Heterogeneity

Some stylized facts about business practices in small firms

- Vast heterogeneity in business practices and performance across similar businesses (?)
- Variation in practices accounts for more than 20% of variation in productivity within the same firm in the US (?)
 - Research has largely overlooked this heterogeneity in program design and implementation

We **make productive use of this heterogeneity** in our research design:

- Use cross-firm variation to identify **practices associated with business performance**
- **Curation** of local best practices
- Test different **modes of delivery**, and their cost-effectiveness

Selecting Local Best Practices

- Detailed **qualitative interviews** with local business peers:
 - Understand and codify their practices (record-keeping, financial planning, stocking-up, marketing, and joint decision-making)
 - Identify implementation norms and beliefs regarding each practice (e.g. whether they are complicated, necessary, etc.)
 - Document locally relevant tips and rule of thumbs
- Baseline **quantitative survey**
 - Measure practices and outcomes
 - Quantitative association of business practices with profits and sales

Disseminating Knowledge

Basic information intervention

- **Handbook**

- **Pure information:** Which practices, how to adopt, and why?

Two complementary behavioral interventions:

- **Movie**

- **Psychological and emotional involvement** → social learning is possible through **observing the successful experience of similar others**.
 - Bernard, et al. (2014); La Ferrara et al. (2012); Chong and La Ferrara (2009); Berg and Zia (2013).

- **On-site Assistance**

- **Hands-on involvement** → social learning is possible through own **experience, with a small nudge** (Kolb, 1984).
 - Facilitated by local lay person

Research Questions

Characterization of local best practices

- Which practices are associated with high profits?
- How do successful businesses implement them?

Adoption of best practices

- Do retailers adopt these practices once peer best practices are aggregated and made common knowledge?
- If so, does the type of experiential involvement matter?

Impact on business performance

- Does firm profitability increase?
- If so, what are the channels?

Sample

- Listing of 2042 small retail businesses from 29 sub-districts ("kelurahan") in urban Jakarta
- Selection criteria for firm listing:
 - At least $4m^2$ in size
 - At least two different product categories on offer
 - At least 30 meters distance to next business in sample → to minimize spillovers
- Random sample of 1301 from the list
- Randomization to treatment arms stratified by
 - Gender
 - Firm space ($4-6m^2$, $6-10m^2$, 10 and above m^2)
 - Composite score of business practices above or below median
 - Sub-district

Experimental Design

Three types of information delivery:

- 1 **Handbook** with best practices and implementation tips
- 2 **Movie** with successful peers
- 3 **On-site assistance** with practice adoption

→ Movie, assistance exclusively based on handbook

Five experimental groups

- 1 **Handbook** only (N=260)
- 2 **Handbook** + invitation to **movie** screening (N=260)
- 3 **Handbook** + offer of two **assistance** visits (N=260)
- 4 **Handbook** + **movie** + **assistance** (N=260)
- 5 Control (N=261)

Why you should try these best practices in your shop

*Evidence from a large-scale study
on Jakarta-based retailers*

RECORD-KEEPING

Shop owners who keep business records report 28% higher monthly sales and 26% higher monthly profits than those who do not keep business records.

Shop owners who track their customers' debts report 40% higher monthly sales and 36% higher monthly profits than those who do not track their customers' debts.

STOCK-UP SCHEDULING

Shops that maintain stock-up schedules earn 26% more in monthly sales and 25% more in profits than those that do not maintain stock-up schedules of their primary products.

Shops that stock up daily rather than weekly earn 48% more in monthly sales and 37% more in monthly profits.

Handbook Content

A step-by-step guide to record-keeping

Step 1: Separating household and business finances

The best way to start keeping records is by establishing a clear separation between your personal and business finances. We do not mean this in the strictest sense of keeping your business cash away from your personal life completely, rather we advise you to not lose sight of your cash flow.

The most convenient and effective way to separate your personal and business finances is by **physically separating the funds into two different cash boxes, purses, or drawers. Label them clearly**; use one compartment for business purposes and another for personal.

Use only your business compartment to follow this handbook from this point forward. Make sure that money in your business compartment is used only for business purposes. Be meticulous about it - this is the first step to get your finances organized!

There is an activity at the end of this section that requires an additional compartment. If you have one more cash box, purse, or drawer available, please reserve it for this activity (**record-keeping, extra step**).

Business Knowledge or Aspirations?

Impact on practice adoption and business performance may work through ..

- .. acquisition of **business knowledge** and/or
- .. strengthening of **business aspirations**

We directly measure **business aspirations** ..

- .. at baseline, midline, and endline
- .. for short (one year) and long ("ideal business") time horizons
- .. for various dimensions of potential business expansion
 - Sales on a normal day
 - Physical size
 - Customers on a normal day
 - Employees

→ **No impact on aspirations**

→ Performance likely driven by increase in **business knowledge**

APPENDIX

Business Stealing?

Do treated businesses improve performance at the expense of the control?

- Sales and profits of **control businesses do not decrease** from baseline to endline (roughly equal)
- Sales and profits of control businesses **closer to treated shops do not decrease by more** than those further away
→ **No evidence for business stealing**

Cost-Effectiveness

Small costs (per firm):

- Cost Handbook alone: USD 100
- Cost Handbook & Movie: USD 125
- Cost Handbook & Assistance: USD 125
- Cost Handbook & Movie & Assistance: USD 150

Substantial Benefits

- Up to USD 330 per month in profits
- Adoption of top practices by retailers

Research design likely **scalable and portable**

Takeaways

- Curating local knowledge has value for business growth
- Information alone does not have impact, only combined with behavioral interventions
- Mechanism likely knowledge-based, not aspirations-based
- Behavioral interventions are inexpensive and scalable
 - Attractive for policy
